

# Brisbane Stadium

## Fact sheet August 2025

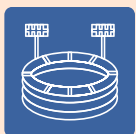

Victoria Park will become the home of Brisbane's new oval stadium. Located centrally in the heart of Brisbane and adjacent to the new National Aquatic Centre, Brisbane Stadium will be a world-class venue that showcases the city on the global stage.

Designed with legacy community sporting fields and a large seating capacity, the new stadium promises to deliver community and economic benefits, aligning with Queensland's bold vision to attract world-class sporting events and the biggest international superstars in the years ahead.

In legacy mode, the stadium will host AFL and cricket, with the Brisbane Lions, Brisbane Heat, and Queensland Bulls all calling the stadium home.

## Features and benefits

### Capacity for major sport and entertainment

With a legacy capacity of 63,000 and up to 70,000 for concerts, the new stadium will serve as Brisbane's future home of major sporting and entertainment events.

### Transport connectivity

Brisbane Stadium will have exceptional connectivity to nearby existing and planned transport such as Cross River Rail and Brisbane Metro stations, the busway network, major roads and other rail stations.

### Preservation of green space

Opportunities to reduce the footprint of the stadium and associated infrastructure will be explored to retain and enhance as much green space as possible, preserving public parkland.
