

Para Sport Facility

Fact sheet August 2025

A world-class Para sport facility at Chandler is more than just sporting infrastructure; it provides a powerful legacy for community Para sports and fosters the next generation of athletes with disability.

The existing Chandler Arena will be upgraded to house the new, dedicated facility for indoor Para sports. Once complete, it will provide an important community asset both in the lead-up to and following the Games.

Delivering this venue will support increased participation in sport and physical activity for people with disability and support high performance pathways for our future Paralympians. The Para Sport Facility will be complemented by precinct-wide upgrades which will enhance accessibility and connectivity between the different venues at the Chandler Sport Precinct.

Features and benefits

A new legacy for a sporting icon

The new facility will continue the sporting history of the Chandler Sports Precinct - first constructed ahead of the Brisbane 1982 Commonwealth Games - launching a new chapter in supporting Para athletes.

Celebrating inclusivity

Building a dedicated Para sport facility helps showcase and celebrate a society that is inclusive for people of all abilities encouraging participation for future Para athletes and community members alike.

Guided by experts

Set to transform a valued community asset, the new centre will deliver benefits beyond high performance use, such as enhanced amenities and greater community access to world-class aquatic facilities.
